SUMMARY

Recent Computer Science graduate with hands-on experience in full-stack development and DevOps through internships and academic projects. Proficient in building responsive web applications using React, ASP.NET Core, and Laravel, and in deploying cloud infrastructure with Docker, Kubernetes, Terraform, and Azure. Eager to contribute to a team environment, apply strong technical foundations, and continue growing as a software engineer.

EXPERIENCE

DevOps Engineering Intern

Saudi Digital Academy · Saudi Arabia · Feb 2025 – May 2025

- Designed and maintained CI/CD pipelines using Azure DevOps, streamlining build and deployment workflows and eliminating error-prone manual release steps.
- Containerized and orchestrated a 3-tier application using Docker and Kubernetes; provisioned Azure cloud infrastructure with Terraform (IaC), enabling consistent and repeatable deployments.
- Configured Prometheus and Grafana monitoring dashboards to track real-time system health metrics, improving visibility and supporting faster incident detection and response.
- Collaborated with a team of engineers to apply DevOps best practices across the software delivery lifecycle, including version control workflows using Git.

Web Development Intern

Deanship of Graduate Studies, King Abdulaziz University · Jeddah, Saudi Arabia · Jun 2023 – Aug 2023

- Developed and launched a chatbot-integrated web platform that reduced incoming support requests by 40%, directly decreasing staff workload and average response time.
- Designed responsive, accessible UIs across multiple breakpoints using HTML, CSS, and Bootstrap, improving usability and cross-device compatibility.
- Collaborated with stakeholders to gather and translate requirements into deployable features, delivering all milestones on schedule.

EDUCATION

B.Sc. Computer Science

King Abdulaziz University · Jeddah, Saudi Arabia · Jun 2024

GPA 4.78 / 5.0 · First-Class Honors

PROJECTS

ADMS — Academic Department Management System — Laravel · Bootstrap · MySQL

- Role-based web application for KAU's CS Department supporting 5 user roles, automating administrative workflows and improving operational efficiency by 30%.

Cloud-Native Three-Tier Application — Azure · Docker · Kubernetes · Terraform · Azure DevOps

- Migrated a 3-tier application to Azure with fully containerized services; automated infrastructure provisioning with Terraform and achieved 100% pipeline-driven deployment via Azure DevOps CI/CD.

TECHNICAL SKILLS

Frontend: React, HTML, CSS, Tailwind CSS, Bootstrap, JavaScript

Backend: ASP.NET Core MVC, Laravel, REST APIs, Python, Java, JavaScript

DevOps & Cloud: Docker, Kubernetes, Terraform, Microsoft Azure, Azure DevOps, CI/CD Pipelines, Git

LANGUAGES

Arabic: Native **English:** C1 — Advanced Proficiency (IELTS)

CERTIFICATIONS

Azure AI Fundamentals (AI-900) · Microsoft	Dec 2025
DevOps Bootcamp · Saudi Digital Academy	May 2025
ASP.NET Core MVC · Tuwaiq Academy	Jan 2025
Advanced React · Meta	Sep 2024
